

Success Spotlights

Putnam County

One particular day I was delivering the Dolly Parton Imagination Library pamphlets with registration form and envelopes to the Putnam Community Medical Center.

When I arrived I noticed the husband of one of our School Readiness Providers ahead of me. After saying hello he stated that he was there to see his new grandchild that was just delivered a few hours earlier. I congratulated him and he said that his wife (SR Provider) would love to say hello and for me to see the new baby. I was delighted and went in with my box of pamphlets in tow along with Bessie Sweat (my contact with the Birthing Center). I said hello to all including the new mother and then had a great idea. This could be our first baby to sign up!

I explained the program to our Grandparent/ Provider. She was very enthusiastic and she signed the baby & mother up that very day! What a great coincidence and a super way to start the Dolly Parton Imagination Library up in our County, don't you think?
