

Success Spotlight

Dana* is a single parent who's been receiving services at Early Learning Coalition of North Florida since 2012. Her household consists of two younger children as well as her college-aged child, but only receives financial assistance for her youngest child.

Due to a recent 10 percent pay increase at her job, Dana came in to the office in late March in order to redetermine her services.

During the interview, Dana had mentioned how much our services help her stay afloat. She restated without School Readiness assistance, she would not be able to afford childcare along with her monthly bills.

She also expressed gratitude while stating her child has grown both physically and academically while enrolled with the provider she uses and she is thankful to be able to send her child to a gold-seal provider due to the assistance ELC provides.

** Not her real name*
